Associations and Federations

Description of the organisation

FEVEC is an institution which represents and defends the interest of the valencian construction companies, so our target group is related with the construction sector like: companies, associations, employers, employees, institutions, etc.

FEVEC also offers workers training, that means, part of our target group are VET providers, trainers, educational institutions and in general the educational sector.

The Federation is always in contact with public administrations, governmental institutions, etc. in the local, regional and national level.

Experience of the organization in previous European projects

Experience and Expertise of the organization in the project's subject area

FEVEC has a number of relevant experiences developed in the framework of previous European addressed to VET and to its internationalisation and to enhancement and improvement of mobility of VET trainers and students. In particular like a leader of consortium of these mobility and VET projects:

- Erasmus +: 2017-1-ES01-KA102-037105 "Building Professional and Intercultural Experiences in Europe"; 52 transnational internships of VET students in the following professional families:
 - > Construction and civil work
 - > Installation and Maintenance
 - > Electricity and Electronics
 - > Gardening and Floristry.

More specifically, the VET courses involved, are:

For school-based VET students

- Rehabilitation and Maintenance of buildings

- Electronics and Electricity

For school-based Intermediate VET students:

- Technician in Interiors Works, Decoration and Rehabilitation
- Technician in Refrigeration and Air Conditioning Installation
- Technician in Telecommunications Installations
- Technical in Electrical and Automatic Installations
- Technician in Gardening and Floristry

- Erasmus+: 2019-1-ES01-KA102-061241 "VET internships in Europe to improve competences for employment". 76 Transnational internships of VET students in 2020.

Contributions that can be provided to the project

FEVEC has promoted several initiatives at national and international level to foster innovation in the sector, development of partnerships and internationalization.

Since 1986, FEVEC has been dedicated to specific trainings in the field of construction that have upgraded together with the new market trends.

FEVEC has a long career in:- Occupational Training

- Vocational training
- Training workshops and labor integration
- Training for workers

FEVEC has trained more than 5.000 students in its history in as many as 30 different knowledge areas related to construction.
