Description of the organisation

Lifelong Learning Centre level 2 (LLC) "Epimorfotiki Kilkis single member llc" (Epimorfotiki) was founded in 1995 and specializes on modern Vocational Training and Lifelong Learning (LLL), as well as in advanced Consultative & Supportive Services, including active involvement in EU programmes and Initiatives. The LLC aims at continually promoting sustainable development of Kilkis Province, the business activity and the development of local human resources.

The LLC employs 11 highly educated persons (4 men and 7 women) with long experience and profound knowledge in the field of Vocational Training, LLL and Consultancy and EU programmes and Initiatives. In addition to the permanent staff, Epimorfotiki has also developed a wide network of collaborators, which includes a Quality Consultant, VET trainers, Counsels of Vocational Orientation and Human Resources, Counsels of Continuous Local Development, ICT, etc.

Experience of the organization in previous European projects

actions B of the Council of Europe – European Youth Foundation (COE – EYF) (2012)

Erasmus+ KA2 - How to win the Challenge: Internationalising EQF Level 5 "HINGE" (2015)
Erasmus+ KA2 - E-learning from Nature (2015)

Experience and Expertise of the organization in the project's subject area

Epimorfotiki has a rich experience in the "bottom-up" implementation of activities dealing with VET and School Education. This means that Epimorfotiki is able to plan, implement, and validate the training activity. In relation to the proposed project, Epimorfotiki has significant experience coming from the implementation of the following EU project:

SOCRATES – MINERVA "EDU-ROBOT". The project aimed at promoting the knowledge about Robotics to the Secondary Education, by creating a network of schools, teachers, students, scientists. Experimenting in the field of Robotics, ICT and e-learning. A final competition among schools to award the best Robot was organized in Genova (IT).

Erasmus+ KA2 "Innovative Teacher – Motivated Student: Collaborative Problem Solving". Developing students' skills of logical and critical thinking, collaborative problem solving (CPS), learning to learn, creativity, initiative and entrepreneurial competencies

Also, Epimorfotiki has a very rich experience in planning, organizing and implementing transnational Mobility projects.

Contributions that can be provided to the project

Epimorfotiki Kilkis has rich experience on the field of education by implementing Vocation Training and Lifelong Learning courses for more than twenty years. In addition, specializes in advanced Consultative & Supportive Services, including active involvement in EU programmes and Initiatives. The LLC aims at continually promoting sustainable development of Kilkis Province, the business activity and the development of local human resources.

Epimorfotiki introduces innovative tools and means in administration-management as well as education, providing Lifelong Learning services to all adults' groups, with every available educational tool and in regards to every learning subject.

Reasons of involvement in the project

The main objectives of the project meet the overall philosophy of Epimorfotiki which is to continually promoting sustainable development of Kilkis Prefecture, the business activity and the development of local human resources.

Epimorfotiki Kilkis through the involvement in Erasmus+ projects try always to exchange experiences with other partners from all around Europe and exploit that experience to enrich its learning potential for the benefit of the local community.
